University

ELEVATE

your
experience!

Join a club.

With more than 60 clubs and organizations, you're sure to find one or more that needs your talents, and you'll make friends who share your interests!

Play your sport.

Compete at the college level in the sport you love. Or, if not interested in participating at the intercollegiate level, you can play intramurals, where the competition is just as fierce!

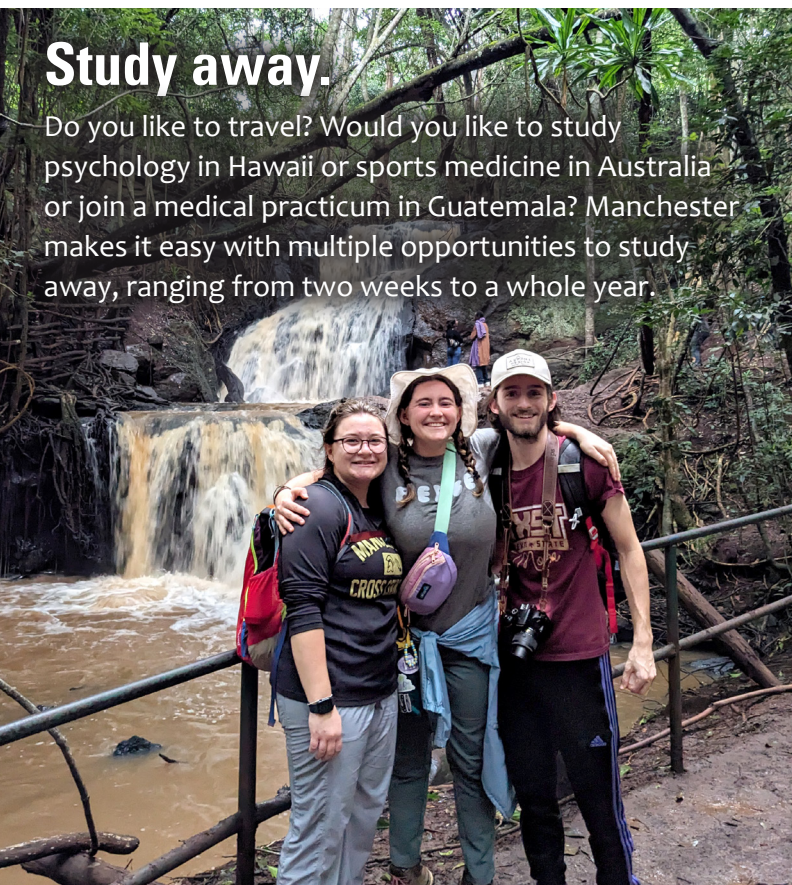

Challenge yourself.

Students with exceptional academic records are invited to join the Honors Program. Honors students benefit from unique, engaging and challenging learning opportunities.

EXPERIENCE SH

At Manchester, we prepare you through a blend of practical and theoretical learning to explore your passions, expand your horizons, and cultivate your talents. By the time you graduate, you'll have both a diploma and the real-world skills e

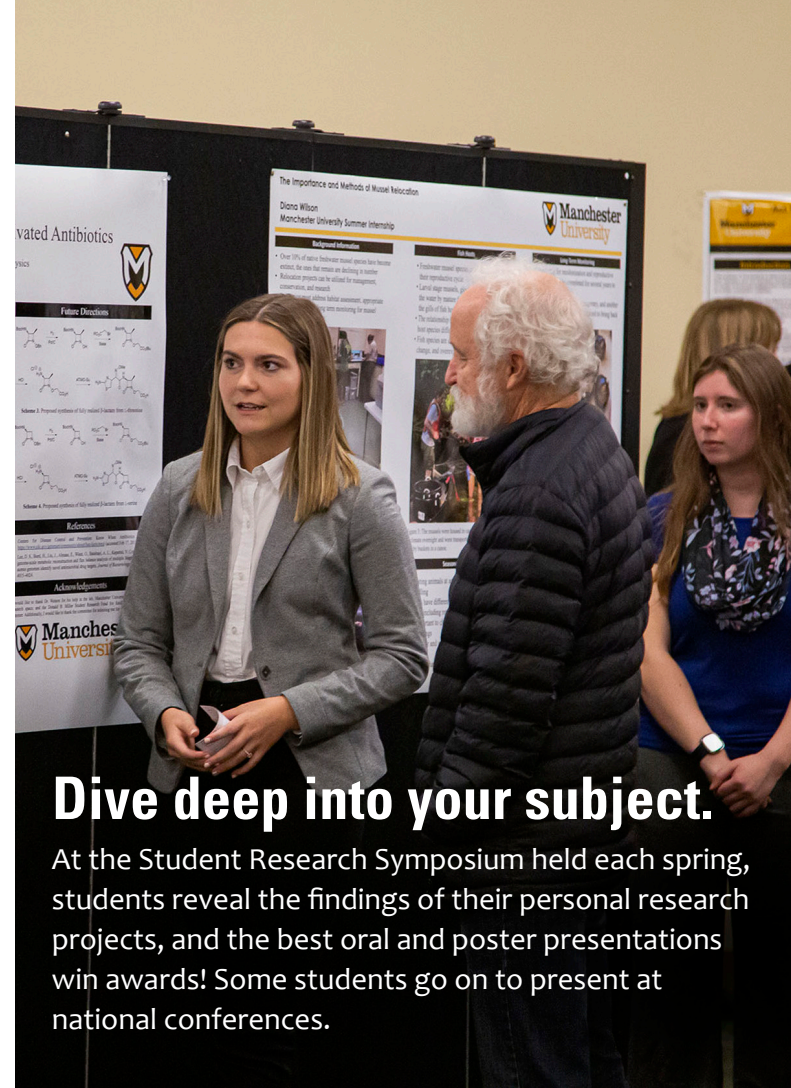

Study away.

Do you like to travel? Would you like to study psychology in Hawaii or sports medicine in Australia or join a medical practicum in Guatemala? Manchester makes it easy with multiple opportunities to study away, ranging from two weeks to a whole year.

Celebrate diversity.

Manchester is a place of inclusion and welcomes diversity in its various forms and definitions. You'll find that you learn much from those with different backgrounds and beliefs while also discovering that you're very much alike.

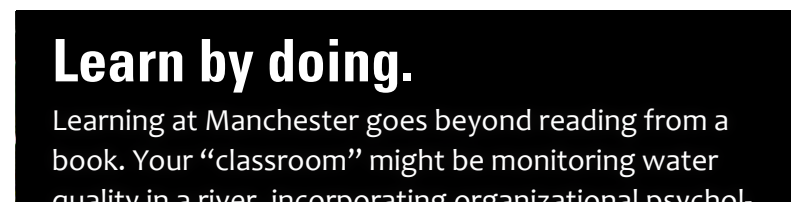

Dive deep into your subject.

At the Student Research Symposium held each spring, students reveal the findings of their personal research projects, and the best oral and poster presentations win awards! Some students go on to present at national conferences.

SHAPES SUCCESS

Are you ready for the workforce? Gain real-world experience through various applications that let you experience different cultures, industries, and perspectives. By the time you graduate, you'll have a resume packed with experiences that employers value.

Learn by doing.

Learning at Manchester goes beyond reading from a book. Your "classroom" might be monitoring water quality in a river, incorporating organizational psychology methods at a chicken farm, or examining some of the world's greatest masterpieces at the Louvre in Paris.

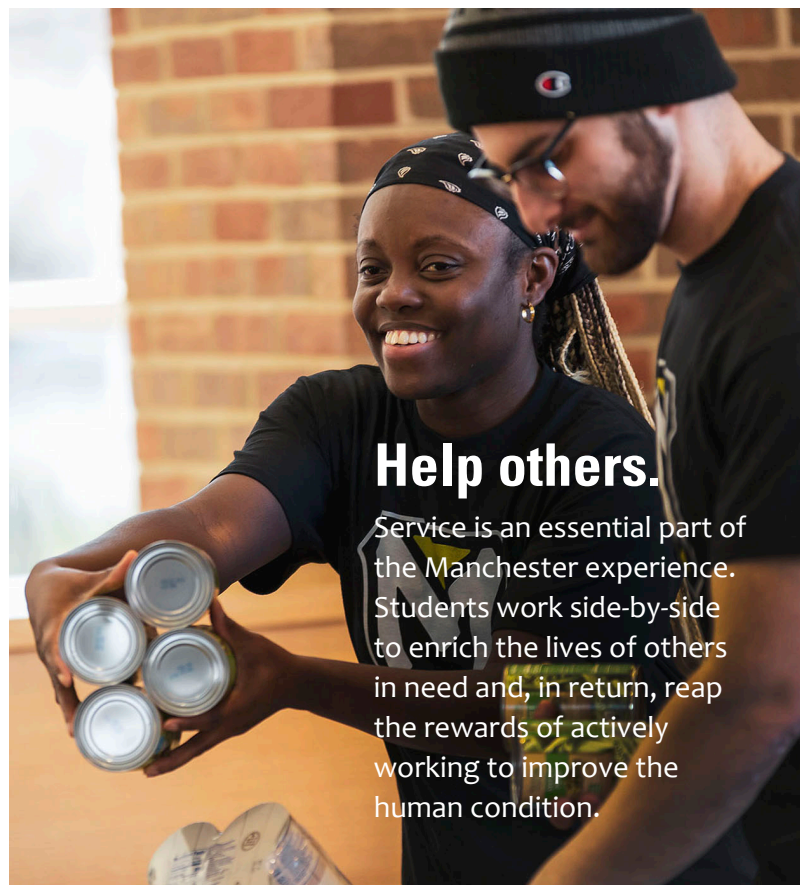

Get real experience.

With guidance from MU's Office of Career and Professional Development, students get exciting internships with area companies – from advertising agencies to hospitals to professional sports teams.

Get in the game.

Esports at MU is a varsity-level team for men and women who compete against other schools in multiplayer online gaming. Seize your chance to suit up and get in the game!

Help others.

Service is an essential part of the Manchester experience. Students work side-by-side to enrich the lives of others in need and, in return, reap the rewards of actively working to improve the human condition.
